Choose The Width Range

If you need a 41-1/2in wide gate, you would choose 32in to 47in range

Enter Your EXACT Gate Width in Inches

This is the actual width of the finished gate.

If you are measuring between existing columns or posts, do not forget to subtract for your gate hardware. Deduct 1in if you are using standard hardware, or 1-1/2in if you are using pool code hardware.

example
41-1/2in

Available Hardware Options

Standard Hardware
(2) Self-Closing Aluminum Hinges & (1) Gravity Latch

Pool Code Hardware
(2) Self-Closing Tru-Close Hinges & (1) MagnaLatch

Available Colors

ICC Swimming Pool Code Approved Heights
