

General-Purpose, Magnetic Gate Latch

- Proven, reliable magnetic latching
- Available with or without lock cylinder
- Stylish dress-caps, no visible fasteners
- Model for glass pool gates available
- Vertically and horizontally adjustable
- Will not rust or corrode
- Meets all International Standards for pool gates

The MagnaLatch® Side Pull key-lockable model is a general-purpose, magnetic gate latch that offers simple, effective latching for many home and garden gates, and some swimming pool gate applications*. Its clever design offers 10mm of horizontal and vertical adjustment that helps to improve the reliability of a gate by correcting gate sag or ground movement over time. Easy to install and mounts to left or right-hinged gates. *** When installing this latch to a swimming pool gate always confirm any safety requirements with your local Council or authorities to ensure compliance.**
