

Dual Sided, Lockable Security Gate Latch

- Easy, fast installation
- Vertical and horizontal adjustment for reliable latching
- Can easily be installed on right or left hand swing gates
- Made from industrial-strength polymer (no rusting, binding or staining)
- Aluminum and stainless steel components

Safetech researchers took a close look at gravity gate latches and determined that reliable latching is tremendously improved by removing the guiding means that can trap particles and keep the hooks from engaging.

Available Colors

 Black

Specifications

Gate Frame/Post Shape: Square-to-Square

Min Post Size: 1" + (25mm+)

Ideal Gate Gap: 3/4" (19mm)

Fixing Method: Screw-On
