

VIPER

GRAVITY LATCH

REVOLUTIONARY LATCHING FUNCTION,
NO GUIDING MEANS!

Safetech's groundbreaking **Viper Latch** is the newest and most innovative gravity latch on the market. Through Safetech's expertise in latches and locks, the ingenious design of the **Viper** was born. It requires no guiding means at all, preventing any possibility of the latching hooks jamming and interfering with performance. At the same time, the **Viper's** patented back plate lets you switch from left hand to right hand operation in just seconds with no screws required.

*Installing a gravity latch has never been simpler and easier, **Viper** saves you time and money.*

- ADJUSTABLE HORIZONTALLY AND VERTICALLY
- SUITABLE FOR METAL, WOOD AND VINYL APPLICATIONS
- MANUFACTURED FROM HIGH-GRADE ENGINEERED POLYMER AND STAINLESS STEEL COMPONENTS
- LIMITED LIFETIME WARRANTY
