58-3/4in

46-3/4in

Our gates are built using full width pickets to maintain structural integrity. The pocket rails are glued into heavy duty gate sockets. The sockets are glued and riveted into the gate uprights. An additional cross brace is glued and screwed to one side of the gate for additional support. Screws are finished with color matched caps.

Heavy Duty Gate Socket

Cross Brace Installed On One Side

Rails have integral retention tabs on both ends to secure the panel to the post. 94in wide panels include an internal metal insert in one rail to prevent sagging

ICC POOL CODE APPROVED HEIGHTS

Privacy
58-3/4in, 70-3/4in

Check Local Codes Before Purchasing.

SPECIFICATIONS

Material: VMA Certified PVC

Tongue & Groove Pickets: 6in x 7/8in x 0.050in Wall

Pocket Rails: 5-1/2in x 1-3/4in x 0.085in Wall

Please Note: Panels ship **UN-ASSEMBLED** for installation on site. A standard privacy fence can rack about 4in over an 8ft span. Greater racking can be achieved by trimming the ends of the T & G pickets at an appropriate angle.

Gates: Glued & Riveted Construction With Cross Brace Support
