

Proudly Made In The USA, these Patent Pending, T-post connectors allow for quick removal of the upper section of the post and fence. Being able to lower the silt or safety fence prevents costly damage from construction vehicles, material drops, and site access. The simple install-and-remove clip design helps reduce expenses from damaged posts, fencing, and equipment.

### Also Available

T-Connect With 16in Ground T-Post  
T-Connect With 24in Ground T-Post

Installation is simple. Drive the 16 or 24 inch steel T-post into the ground, leaving 2 inches above grade. Slide the connector onto the post and insert the upper T-post into the connector to create a strong, secure connection. To remove simply pull up on the upper T-post.
